PREFACE

Mt. Airy, North Carolina

"THE FRIENDLY CITY"

Mount Airy, a beautiful city in the valley of the foot of the Blue Ridge Mountains, is the home of the largest open face granite quarry in the world. The city's present population, including a recent annexed area, is in the vicinity of 10,000. Mount Airy is the center of a trade territory of 50 to 60 miles in radius, handling poultry and produce and being a shopping center for farmers, as well as industrial workers. The principal scenic attraction in the vicinity of Mount Airy is the beautiful Blue Ridge Parkway, an elongaed park with a scenic motorway designed expressly for the tourists. It is reached by U. S. Highway 52 North and State Highway 89 North.

INDUSTRIES

Mount Airy is rapidly becoming a better known City in North Carolina for its industrial strength. There are four large furniture factories that make high quality furniture employing skilled labor at reasonable wages. In recent years the City has been privileged to welcome several textile industries which have added potency to the Mount Airy economy, and they have also added a certain stability to the labor situation. Other industries which have vastly improved the Mount Airy economic situation are Proctor Electric Company, makers of the world's finest toasters, an elastic plant, an industrial plastics manufacturer, and a mirror manufacturing establishment.

TOBACCO WAREHOUSES

There are five large tobacco warehouses in Mount Airy. The market is considered the largest in the world with one set of tobacco buyers. The tobacco houses are well lighted. Market is steadily growing, and the cooperation of the merchants in a publicity campaign has become an annual affair each fall.

CIVIC ORGANIZATIONS

Kiwanis, Rotary, Lions, Junior Woman's Club, Mount Airy Woman's Club, Junior Chamber of Commerce, The Chamber of Commerce, Merchants Association and Credit Associations, Sertoma Club, Beta Sigma Phi Sorority, Country Club and two golf courses, American Legion, and Auxiliary, Veterans of Foreign Wars, and Auxiliary, Ruritan Clubs and several Garden Clubs.

CLIMATE

Mount Airy enjoys a climate in both summer and winter that is far more moderate than is found in most parts of the Eastern United States. Its summers are remarkably temperate, there is a lack of humidity, and almost complete freedom from mosquitoes. It enjoys an average rainfall which is distributed, generally, throughout the year.

BUSINESS

This Publication is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and directory of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
